Getting Started #3: Game of 36

JACK PETCHEY FOUNDATION
COUNT ON US Secondary Maths Challenge
WITH MAYOR'S FUND FOR LONDON

This activity is similar to the third round of the Count On Us Secondary Challenge: the 24©Game. Take each card in turn. You must use all 4 numbers once and once only, add, subtract, multiply or divide however you like, and make an answer of 36. When you've done these, make more of your own!

HELP US SPREAD THE WORD…

We want to make sure everyone in London knows about your fantastic maths problem solving. Share your thinking, your solutions and photos on Twitter!
Keep them coming and remember - tag us and your school in any online activity.
